## Section 8 – Occupational Class Schedule

This section will help you determine accurate occupational classifications for your applicants. Occupational classes are assigned based on the requirements of the job and the risks that job poses to the applicant's health.

The key to easy reference in this schedule is to first look for the specific title of the client's occupation. If the job title is not listed, refer to the industry in which the client's job belongs.

Job title should not be the sole basis for selection of occupation class. In some instances, titles can be very misleading. Titles such as optometrist or CPA, for example, give the correct class (5A) automatically. Titles like owner, supervisor, president, and manager are less helpful, since duties could range from 100% administrative to 100% manual labor. It is appropriate for clients to be classified by job title if the title is representative of their actual duties. If job title does not truly reflect job duties, the occupation class should be based on the day to day duties, financial stability, environment, education, training and experience of the client. In Michigan, for any occupation listed as a "no," please contact your DI underwriter for issue consideration.

*If you are unable to find an occupation, or are just unsure, call your DI underwriter.*

## OCCUPATIONAL CLASS SCHEDULE

---

*ABTRACTOR .....	3A
*ACCOUNTANT	
CPA .....	Select 5A
With 4 year accounting degree .....	4A
Other .....	3A
ACTOR, ACTRESS .....	No
ACTUARY
